# Key Market Factors

The proper balance of these factors will expedite your sale.

- 1. Location** is the single greatest factor affecting value. A neighborhood's desirability is basic to a property's fair market value.
- 2. Competition.** Buyers compare your property against other in your neighborhood. They interpret value based on available properties on the market.
- 3. Timing.** The real estate market may reflect a "buyers" or "sellers" market. Market conditions cannot be manipulated; an individually tailored marketing plan of action must be developed for each property.
- 4. Condition.** The property condition will affect price and speed of sale. Optimizing physical appearance and advance preparation for marketing maximized value.
- 5. Terms.** The more terms available, the larger the market, the quicker the sale and the higher the price. Terms structured to meet your objectives are important to successful marketing.
- 6. Price.** If the property is not properly priced, a sale may be delayed or even prevented. Reviewing the Comparative Market Analysis assists you in determining the best possible price.

# The Impact of Price on Visibility

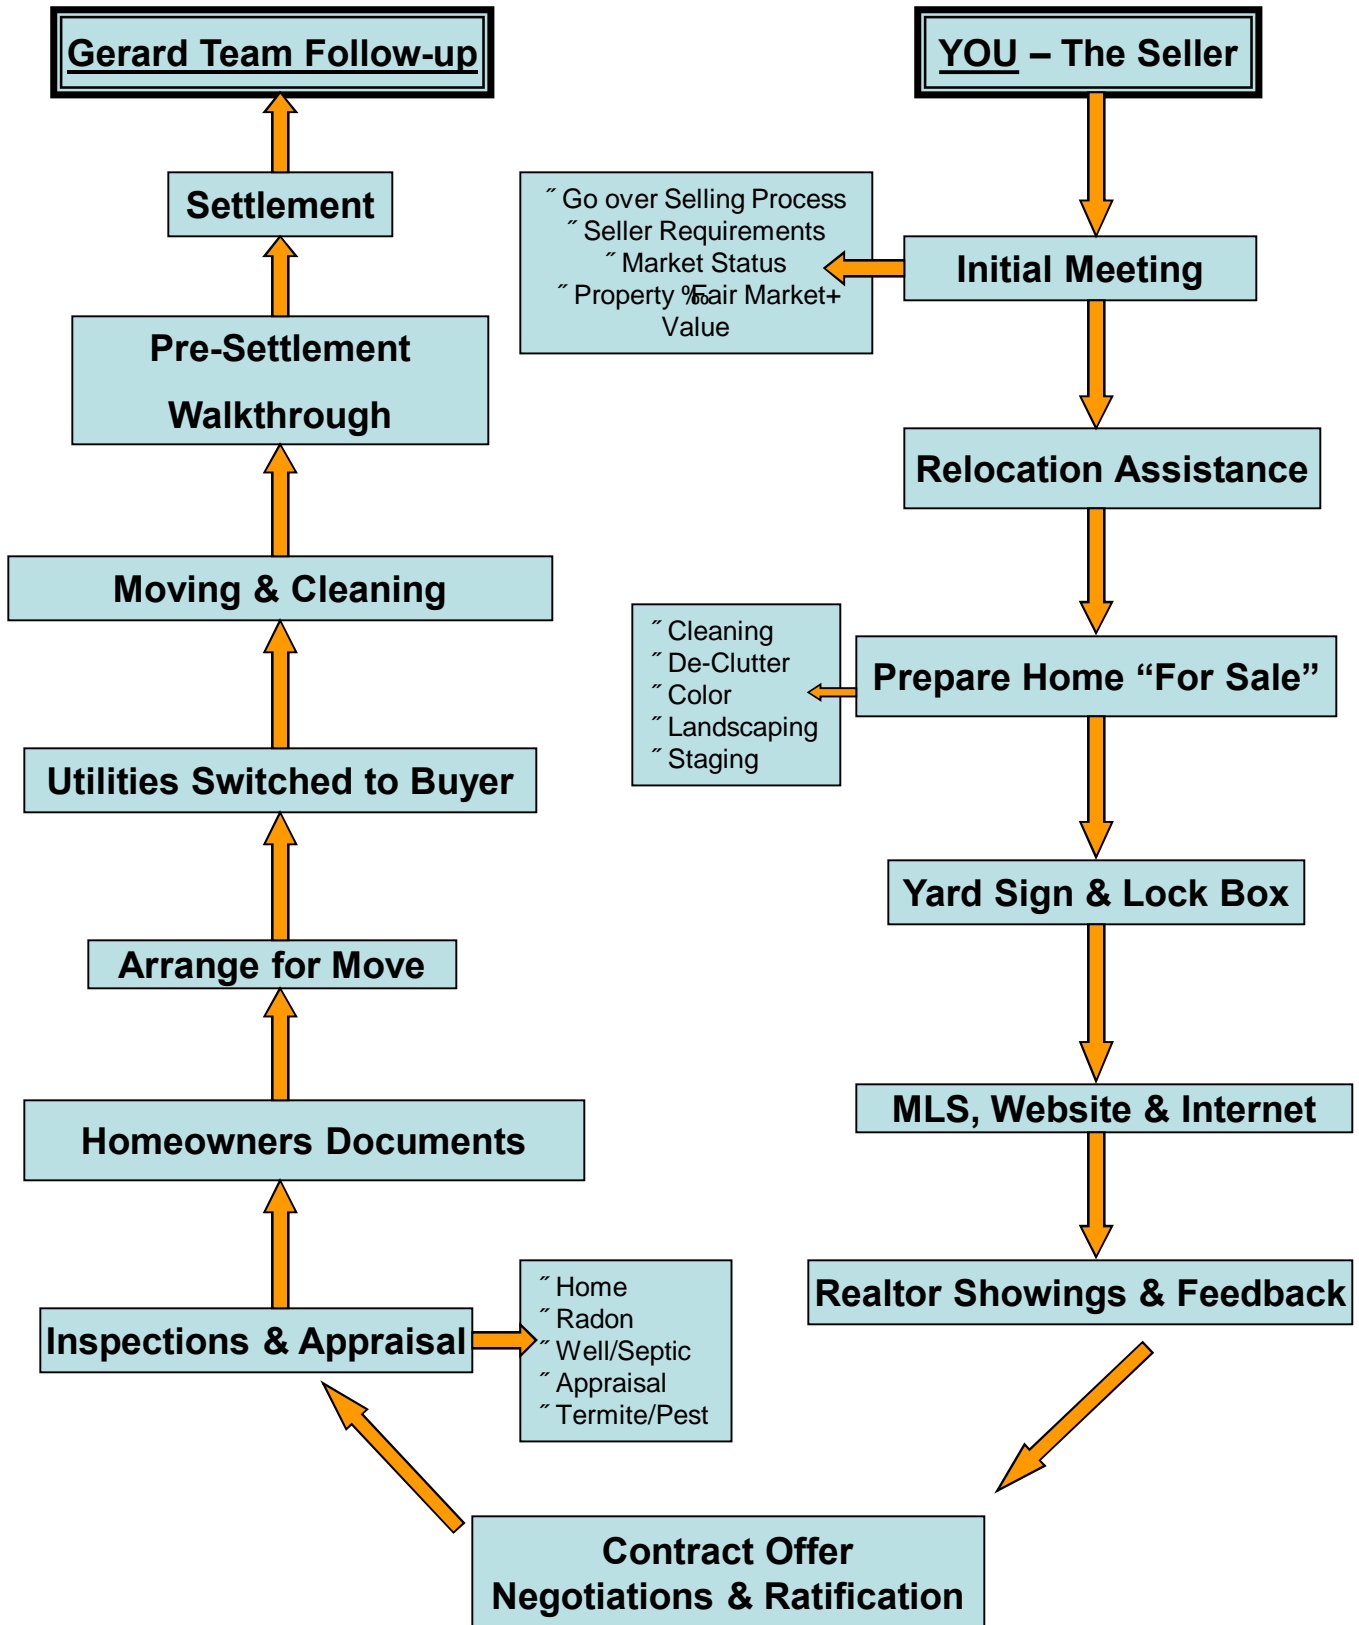

NAR from Move Sales, Inc.

If your home is priced at or below market value, it dramatically affects the showings and visibility of the home. The market will drive it up to the current value and isn't it better to get more than one offer quickly than none?

## **Let's get Buyers excited about your home!**

**Our marketing is designed to show buyers what makes your home unique.**

1. What makes your home a special place?
2. What would you tell a potential buyer?
3. Why did you decide to buy this home yourself? Ie. Schools, amenities, views, convenience?
4. Which features of your home would excite buyers? What "hidden features" of your home might a buyer overlook if they saw it quickly?
5. How did these features make your life easier?
6. Why will it be hard for you to leave this home?
7. What would you tell buyers about the neighborhood?

**This helps us with the copy description we'll use to sell your home.  
We need to appeal to emotions.**
